[Meet Our Staff](#)

[Frequently Asked Questions](#)

More can be viewed from the side bar or ctrl (or cmd) + f

Please read ALL of the following

If you are meant to be doing class work, homework or anything related to school please do so before using any and all of these sites.

We are not some sort of “no school work” or “no homework” kind of company.

Please follow any school device requirements and or guidelines to be 100% clear, we do not condone the use of these sites for anything bad, don't search anything inappropriate, illegal or violent.

# Tips

**Tip:** Sites with a \* next to them are sites that are private for only this document.

**Tip:** you can use game sites through proxies if any of them are blocked.

**Tip:** For the hacks, create a bookmark and paste the code for the url with "javascript:" before it.

**Tip:** If a site doesn't load right away, keep waiting and reloading. Some proxies can take a while to load.

---

For the hacks, create a bookmark and paste the code for the url with "javascript:" before it.

## Fun sites

<https://blooket.com> - you may already know what this is, but if you don't, it's basically a fun twist on learning with questions and fun games.

<https://gimkit.com> - another quiz game like blooket but with different games

<https://produgygame.com> - A different quiz game but with math! It may seem boring at first, but it is basically a rpg with math questions to recharge attacks. you get all sorts of pets to help you attack bosses and enemies to get through the different worlds and you can play online with friends and other people.

<https://kahoot.com> - Game like blookey but with less modes but also good for playing to pass the time in class.

<https://www.toiletswipe.com> - 🧑

<https://quickdraw.withgoogle.com> - you'll get a prompt with something to draw and the ai will try to guess it

<https://poe.com/> - ai that you can talk to. Also school cheat.

All the hacks are bookmarklets

## Hacks: Taken From Ram Networks

### Prodigy Math Hacks

[Free Membership](#)

## FAQ

What is a proxy?

If you are unfamiliar with what a proxy is, it is basically a way to **bypass internet censorship** with the **use of a browser that doesn't contain "safe search"** & allows you to use sites through

other sites which assures that the websites are completely unblocked.

### What is safe search?

It is a way to search the internet with certain filters that don't allow you to search certain things that schools normally wouldn't allow. Safe search is basically just a search engine that blocks certain searches. There is basically no reason to use one, especially on a school device where custom safe search is already installed.

### What is Webworks?

Webworks is a series of docs containing proxies, and other unblocked sites, as a hope that students all around the country find our docs and use them to get through school!

### Are these okay to use?

Yes, as long as you don't affect other students' learning experience or get you in trouble. We are not responsible for anything bad that you do with the hacks or proxies.

### What are the fonts used in this doc?

This font is called **nova cut**.  
The other ones are audio wide,  
**Titan One (also the blookey font)**.  
Other proxy doc fonts use: VT323,  
comforto,  
I like this font too it is orbitron (maybe I will use this)  
There are more but these are the ones I like the best.

---

---

## About Webworks

Project Webworks is a series of Documents, created by Tacobxi and HeatedDonut meant to remove Censorship, meaning we put Unblocked Websites on the documents. Read top Section.

Although we give you websites, you are held accountable for any inappropriate behavior on the proxies.

### Terms Of Service

#### [Webworks] Terms Of Service

Please look over and follow the Terms of Service while using any webworks asset.

By continuing you agree to our Terms Of Service.

### Note #1

Every year around October or November we will revamp and update the documents.

### Note #2

This list is updated pretty much daily. So keep an eye out for more sites

You can appeal all bans if you believe you have been falsely banned.

### Warning

You may only access this at school if you are not supposed to be doing homework or schoolwork. You can access it in your **free time**.

**Failure to follow this rule will result in (2) Points**, the amount of points is up to a Moderator to determine. **We enforce this rule, holding up to a maximum punishment of 5 Points.** We take this rule seriously, so do it in your free time, not during when you're supposed to do homework or schoolwork.

### Warning #2

This document contains Websites, Proxies, Movies, Video Downloaders, etc...

### Warning #3

If you get in trouble for using a website we are not accountable or to blame for your actions.

**Sadly all github.io sites are blocked at my school so some sites won't work for now.** Just use a proxy to use the github sites for now until I figure out a way to unblock.

**Some links may not work when clicked through the doc. try searching the sites directly into your browser,** and keep trying until you get a link to work.
