

# RAM NETWORKS

Made for students, by students

## Monthly Newsletter - January 2024

Hello, Ram Networks users!

And Happy New Year! This Newsletter has explanation, hope, and a final goodbye. It will be short and sweet, Enjoy!

---

### *What happened Over the break:*

Not much but we are trying to make this doc even better!

---

### *Why did the YouTube channel get deleted?:*

Well as many of you know we've been having issues with one of our fellow students, Cayson Williams. Well, he decided to call our former owner (TheShmungus1) using the phone number on the YouTube Channel. While we think this is not only a violation of privacy it is also just not ok.

---

### *Why Is Cayson even an issue?:*

This is quite a long story but, we banned him for making threats, making alts, and overall causing utter chaos.

---

### *Why is Yesn't Leaving?:*

Well I don't really want to go but, the issue is that Cayson knows that TheShmungus1 and I made Ram Networks and in order to keep myself out of trouble I'm leaving.

---

*A Final Goodbye by: Yesn't*

When We Started Ram Networks it was just some fun thing for us nerds to do, but honestly I never thought it would grow this much. I can't believe how much I've learned and what this will help me do in the future. It Blows my mind how some middle school kids made such a huge thing for people to see and use. Our goal was to just make it so kids could play games, and we did it! The friends i've made and the people I've met, all of this was an experience I would trade for nothing. At frst this thing had nothing going for it other than a few friends using it, and those friends are now helping build this masterpiece and while this is the last newsletter I'll ever write, I hope there are many more to come

All the best

-Yesn't, former owner
