

Monthly Newsletter - November 2023

Hello, Ram Networks users!

Welcome to the "Ram Networks Monthly Newsletter -November 2023"! We're all finally used to school, and more and more updates are coming.

Well, it's November, fall, Near Yesn't's Birthday, and time for some new updates!

What we are doing right now:

- To the Ram Networks website, we've added a (temporary) new theme, added Luger Movie Networks, added some FnAF Games, and added a lot more Games. Other website updates can be found [here](#).
- Won a war with [Worldly Networks \(Taken Down\)](#).
- Huge [Google Doc](#) update.
- Got our doc taken down and put back up!
- Severed vassalship with  Glitchquake Networks.
- Posted more videos on our [YouTube channel](#).
- Made an Internet Archive account and added a few movies.

Now To tell you why we severed our Partnership with Glitchquake. The First reason is because they had (kind of) this odd cult-type thing with bots and Hindinburgs (which I believe to be fake). There are a few Other personal reasons but We won't get into it.

We honestly loved working with Glitchquake and are happy about how popular it made us, Thank you Glitchquake, and goodbye.

In Other good news though We Have A TON Of new partners Including INA, Gremlin Games, Luger Movie and Music, Viper Networks, Keystroke Industries, and Generative Networks.

Either way, that's the end of this newsletter! Thanks so much for supporting us, and see you next month.
